Vet Login Page

The image shows a mockup of a 'Vet Login' page. The page has a light purple background. On the left, there is a faded image of a woman with glasses holding two small dogs. On the right, there is a faded image of a dog's head. In the center, there is a white rounded rectangle with a purple border. Inside this rectangle, the title 'Vet Login' is at the top. Below it, there are two input fields: 'Email Address' with the placeholder 'Enter Your Email' and 'Password' with the placeholder 'Enter Your Password'. To the right of the password field is an eye icon. Below the password field, there is a checkbox labeled 'Remember Me' and a link 'Forgot Password?'. A purple 'SIGN IN' button is below these. At the bottom of the white rectangle, there is a link 'New to the team? Register Here' and a 'Back to Home' button with a house icon. There are also small circular icons in the top right and bottom right corners of the page, each containing a silhouette of a person and a dog.

Everything you need to know about PetCareHub 🐾

1. Request Management

When a client books an appointment, you must **Accept** or **Reject** within your schedule. **Accepting** triggers a 30-minute payment window for the client.

2. Uploading Reports

To mark an appointment as **Completed**, you must upload the **Medical Report**. Your consultation fees are credited to your earnings only after this step.

3. No-Show Policy

If a client fails to arrive, use the **Mark Absent** button. This issues **1 Strike** to the user. After **3 Strikes**, the system blocks their **Cash payment** option permanently.

4. Schedule Locking

After your initial login and schedule setup, you can only update your timings **once every 12 hours**. This ensures stability for active bookings.

5. Going Offline

To go offline, you must provide a **reason**. If you have active appointments during those dates, the system will **cancel** them and notify the clients.

6. Account Removal

To request account removal, you must verify your identity by entering your **password**. Your request will then be sent to the Admin for final approval.

Admin Dashboard (Product Category Table)

The image shows a UI mockup of an Admin Dashboard for a Product Category Table. The dashboard has a dark blue sidebar on the left with a user profile icon at the top and a list of icons below. The main content area has a light gray header with a user profile icon and a settings gear icon. Below the header, there's a section titled "ProductCategory Table" with an "ADD" button. Underneath, there are five buttons: "Copy", "CSV", "Excel", "PDF", and "Print". To the right of these buttons is a search bar labeled "Search records...". Below the search bar is a table with three columns: "CATEGORY_ID", "CATEGORY_NAME", and "DESCRIPTION". Each row has an "EDIT" button and a "REMOVE" button. The table shows three entries: 1 (Food), 2 (Toys), and 3 (Assessories). Below the table, it says "Showing 1 to 3 of 3 entries". At the bottom right, there are "Previous", "1", and "Next" buttons. The footer of the dashboard says "COPYRIGHT © 2026 • DESIGN BY PETCAREHUB_TEAM".

Conclusion

PetCareHub

Project Overview

PetCareHub is a comprehensive, web-based pet care management system developed using the Django 5.2 framework. The platform serves as an all-in-one solution for pet owners, providing seamless access to veterinary services, pet product shopping, and pet adoption — all through a single, unified interface.

Implemented Features

Multi-Role Architecture The system supports five distinct user roles, each with dedicated dashboards and functionalities:

- **Admin** — Full system control including user management, vet/vendor approvals, product and area configuration.
- **Customer** — Registration, login, product browsing, cart, wishlist, checkout, and appointment booking.
- **Veterinarian (Vet)** — Profile management, schedule configuration, and appointment handling.
- **Vendor** — Product management, delivery boy assignment, and order processing.
- **Delivery Boy** — Order tracking and delivery status updates.

Real-World Collaboration — Official Welfare Partnership PetCareHub's pet adoption module was built upon a verified, real-world collaboration with **Adoption Home Ahmedabad**, a pet rescue and adoption initiative based in Ahmedabad, run by **Naitik Bhatt**. The platform directly integrates their Instagram page **@adoptionhome_ahmedabad** ([instagram.com/adoptionhome_ahmedabad](https://www.instagram.com/adoptionhome_ahmedabad)) and official website **kukuram.in** as reference points within the Adoption Portal.

To validate this partnership, two official documents were obtained and are accessible within the platform itself:

- **No Objection Certificate (NOC)** — Ref: DLC/NOC/2026/001 — Official permission granted for the use of Adoption Home Ahmedabad's details within the PetCareHub web application, valid until January 2027.
- **Social Appreciation Letter** — Recognizing PetCareHub's initiative in leveraging technology to support and simplify the pet care ecosystem, acknowledging its role in *"helping connect potential adopters with rescued animals."*

This collaboration adds genuine social impact to the project, bridging the gap between digital awareness and on-ground animal rescue efforts — making PetCareHub not just an academic project, but a platform with real-world humanitarian value.
